WHERE THE WORLD COMES TO LEARN AI

Toronto, Ontario | JULY 8 – 17, 2024

ABOUT THE 2024 DLRL SUMMER SCHOOL

We invite you to sponsor a very special 20th anniversary edition of the Deep Learning Reinforcement Learning (DLRL) Summer School, renowned world-wide as the premier summer learning opportunity for the world's brightest emerging talents in AI.

- Support the next generation of AI talent.
- Advance your recruiting goals by showcasing your company among the world's most talented future AI leaders.
- Interact with critical players in the Canadian AI ecosystem.
- Access exclusive training opportunities for your technical professionals to attend, including prestigious workshops.
- Join industry leaders at the forefront of the latest AI trends, issues, research and innovation.

Since its launch 20 years ago, CIFAR's Deep Learning + Reinforcement Learning (DLRL) Summer School has grown into a thriving community of world-leading graduates, with alumni now at the helm of some of the world's top tech firms and academic labs.

Today, DLRL is a key launching pad for the world's most talented AI and machine learning researchers. This prestigious, highly competitive training opportunity is hosted by CIFAR each year in partnership with Canada's three national AI institutes: Amii in Edmonton, Mila in Montréal and the Vector Institute in Toronto.

2024
CELEBRATING 20 YEARS OF TRAINING THE WORLD'S BEST EMERGING TALENT

Co-hosted by CIFAR and the Vector Institute, the prestigious training opportunity will be held this year in Toronto, Ontario, Canada — a rich, globally-renowned ecosystem of AI innovation.

2X THE LENGTH ➜ EXPONENTIAL LEARNING GAINS

Last year's trainees told us they wanted the school to last longer, and we listened: this year's DLRL will span 10 days (twice the duration of last year), featuring even more learning and networking opportunities.

Over the course of 10 intensive days, participants will learn from Canada CIFAR AI Chairs and other globally-renowned experts across industry and academia. They will join talks about cutting-edge topics in machine learning, and gain access to networking sessions, social events, and a dynamic career fair.

THE DLRL SUMMER SCHOOL CAREER FAIR

For the first time hosted in the brand-new Schwartz Reisman Innovation Centre in the heart of Toronto's innovation district, now home to the Vector Institute, the 2024 DLRL Career Fair is the ideal setting for your organization to showcase opportunities for top global talent to work with you on real-world problems in AI. We welcome members of your team to participate in the school and engage directly with the world's brightest minds in AI and machine learning.
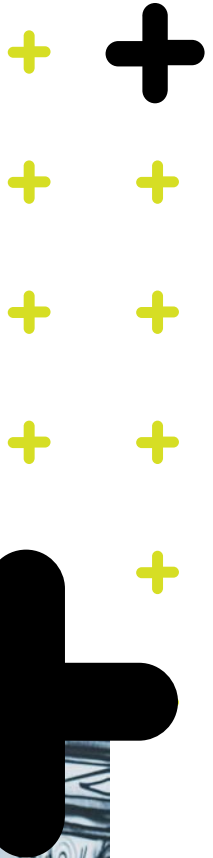

Vector Institute:

PUSHING THE BOUNDARIES OF MACHINE LEARNING AND DEEP LEARNING FOR THE BENEFIT OF CANADIANS

Launched in 2017, the Vector Institute is a globally-renowned AI Institute that empowers researchers, businesses and governments, to develop and adopt AI responsibly. Accentuating Canada's leadership in AI, Vector drives research excellence, encourages industry collaboration, and nurtures talent, to foster economic growth and improve the lives of Canadians.
